

## THE VENUE PACK

# A claw machine that pays rent from your quietest corner

Everything you need to decide, on two pages. We place, stock and service a fun duck-grabber claw machine in your venue at no cost to you — and pay you a monthly share of every play. You provide a corner and a plug; we do the rest.

No gambling licence needed

No cash handling

No staff time

Zero cost, ever

## What you actually earn

Your profit from one machine, per year

# From £180 a year

That's a realistic, achievable figure for a quieter spot — not a promise. Busier venues earn more; see the range below. Results vary by location.

|                              |                                                                                                                       |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Your share</b>            | A genuine 50/50 split of net profit — after prize costs, card fees and running costs — paid monthly by bank transfer. |
| <b>Typical monthly range</b> | £15–£90 per machine per month, depending on venue type and footfall.                                                  |
| <b>At your busiest</b>       | Up to ~£90 / machine / month.                                                                                         |
| <b>Cost to you</b>           | £0. No rent, no lease, no stock, no staff time.                                                                       |
| <b>Your effort</b>           | About two minutes a week — a quick spray and wipe-down to keep it clean.                                              |

It's a genuine 50/50 split, but on profit, not revenue. We cover every cost first — prizes, card fees, running costs — then split whatever's left straight down the middle. We also carry 100% of the risk for that same half: the machine, the stock, the software and the repairs are all on us. It costs you nothing to earn your share.

## The guarantee

**Try it for 90 days.** If you want it gone, for any reason, we remove it within 14 days and you keep 100% of what it made — including our share. No tie-in, no awkward conversation. The downside is ours. Not yours.

Want more certainty from day one? Smaller and independent venues can ask us for a minimum earnings floor in writing when they apply — as an example, a guaranteed £60 payout even if an agreed placement takes under £200 in its first 60 days. Ask when you apply.

## Straight talk

- **It won't make you rich.** It turns a dead corner into a small, reliable monthly cheque — nothing more, nothing less.
- **It only works with the right footfall.** If there isn't a steady flow of people past your corner — families, teens, adults, everyone plays — we'll tell you honestly it isn't a fit — an idle machine costs us too.
- **We're selective on purpose.** This is an application, not an order form.

## Already earning in venues you know

Cutlery Works, Cambridge Street Collective and Rassam's Creamery (Sheffield), Kargo MKT (Manchester) — and more across Liverpool, Birmingham and Wakefield. Every venue we name is on our public locations map at [sheffent.com/locations](https://sheffent.com/locations), so you can check them yourself.

Run more than one venue? Ask about one relationship covering your whole portfolio — the same honest terms at every site, one point of contact for all of them.

The first machine went into ALS Bubble Tea in Sheffield — I still remember the owner's daughter winning seven toys while the whole team watched. I still place, restock and fix every machine myself, which is why when something needs sorting, you're talking to the person who can actually sort it. — Megan, Sheff Entertainment

Live in Sheffield, Manchester, Liverpool, Birmingham, Wakefield & London.

## How it works, end to end

- 1 You apply** — Tell us your venue and the corner you have in mind (~2 minutes).
- 2 We assess & confirm** — A real figure for your specific spot — honestly.
- 3 We install & switch on** — A fully stocked machine. Classed as a Skill With Prizes (SWP) machine, not a gaming machine — no premises licence needed on your side.
- 4 Guests play and win** — We restock and service, and faults are ours.
- 5 You get paid monthly** — With a clear statement — no invoicing, no chasing.

### Ready for your real figure?

**Text Megan now on 07871 105116** — tell her your venue and she'll come back with a real number, usually the same day. Prefer online? Use the calculator at [sheffent.com/calculator](https://sheffent.com/calculator).

**If someone else needs to sign off**, send them this link — everything they need to decide is right here, always up to date:
